The Madison Democrat says if Mr. Jen kins had a mouth more during which to talk, he could be elected: Why a month more if "the Democrats are hopeful, united and enthusiastic, while the Republicans are dispirited and the ticket weak." This is consistency with a vengence.

Zach Chandler is having a sort of triumphal march through a portion of Wisconsin. At Milwaukee he met with grand reception and had a great audience to hear him speak. At Oshkosh he was likewise received in a way befitting the man. He will be greeted by thousands in this city and will make a speech which will not disappoint his friends.

The Gazette of last evening prints a private circular issued by the chairman of the Democratic central committee, which, while it contains nothing for anyone to be ashamed of, shows that some democrat has seen fit to play traitor on rather a small scale. Probably he belongs to that class o. de.nocrats who damn the r party most of the time because it cannot always win victories. -Janesville Times.

The Democrat who exposed the foolishness of the Chairman of the Democratic State Committee is not so deserving of campaign, and hence the discouragement censure as the person who wrote the cir- that has followed it from the time the cular and caused it to be sent through the State. Upon its face the circular is guilty popular Mr. Jenkins may be, his defeat is of dishonesty. It undertook to tell the a foregone conclusion. The people are in Democrats of Wisconsin in a secret manner earnest, and will not trifle with the interwhat no Democratic speaker or paper ests that are at stake in the canvass. They would have the courage to say publicly. In other words circular was intended as a dishonest messenger. Its purpose was to deceive the persons to whom it was sent. It was too brazen in its character and too rediculous in its pretention, to face the public, and therefore it went confined in a closely sealed envelope.

A man can hardly be called a traitor for day: exposing General Parkinson's attempt to dishonor his party and to deceive his political friends. He has ratner done the party a service, and should be entitled to it, gratitude. General Parkinson knew when he wrote the circular, that there was no hope for the party, that the ticket, though not absolutely weak in itself did not have the confidence of the people,' and therefore was doomed to certain defeat, and that the Democratic party was discouraged. He also knew that the Republicans were hopeful, the ticket strong, and victory sure. He knew these things and should not have attempted to play the part of a deceiver. The strongest condemnation that can be put on the circular is to place it along side the election returns next Wednesday.

VIRGINIA CITY, Oct. 29-General Grant and his party descended C shaft yesterday and visited the lower level of the Bonan-zis, under the guidance of J W Mackay. He subsequently visited a number of mills, and was made an honorary member of the Pacific Coast Pioneers. The General made a speech, saying that nothing he received abroad gave him such pleasure as the reception here. The elections of members of Congress are na tional elections, and as such the whole country is conducted, so that every voter may be afforded an opportunity to exercise his right of suffrage freely and without fear of personal violence, to yote once and only once at a given election, and have his vote honestly counted and returned. It is the duty of the national government to en-force this right. The Republican party is opposed to any military interference with elections, except when it is necessary to maintain the public peace and protect the constitutional rights of citizens. In no instance under a Republican administration have United States troops interfered with the exercise of free suffrage on the part of the people. The Democratic party, by the votes of its representatives in Congress against the proposition to prohibit the presence in the vicinity of the polls not of United States troops, but of all measured with deadly weapons. but of all men armed with deadly weapons, has clearly shown the bad faith and hypocresy of its affected horror of bayonets at the polls. A COLORADO EXPERIENCE.

Our tempest tossed night, weather I thank you all for this kindly expression bound at a small hotel on the stage route from Santa Fe, we met a fellow traveller in whom we became greatly interested. I suspect the mountain passes of the Appenines hold no more mystery of crime than do the rocky passes of this fresh continent. Constantly facing danger, the pioneer acquires a hardiness that fits him for every fresh encounter of peril, however unusual. The periodic robbing of stages has become so much of a fact that the express company

"He closed the door and bolted it, which looked strangely." "Don't fear,' he said, as I fumbled for my revolver. Sitting in a chair he pulled off his boot, and from the toe pulled out a roll

of greenbacks. Said he: 'A few days betore I left home I was lucky enough to exchange my doubloons for these. My poor child, let me make the restitution. Here are two thousand dollars which I wish you to accept, in recompense for the money taken by the robbers, handing her the amount. Your lining was a Godsend to me. Further, they would have secured twenty thousand instead of one thousand. Concealed in my baggage are diamonds and precious stones, which, if they had secured, would have beggared me. Taking a solitaire from his vest lining, he presented that also for her acceptance. I should have explained in the stage, but walls have ears, and why should I trust my secret to others?"

ting its specific influence on the Seminal Vesicles Ejaculatory Ducts, Prostrate Gland and Urethra. The use of the Remedy is attended with no pain or inconvenience, it is quickly dissolved and soon absorbed, or oducing an immediate soothing and restorative effect upon the sexual and nervous organizations wrecked from serf-abuse and excesses, stopping the drain from the system, restoring the mind to health and sound memory, removing the Dirkness of Sight. Nervous Debility, Confusion of Ideas, Aversion to Society, Etc. Etc. and the appearance of premature old age usually accompanying this trouble, and restoring perfect Sexual Vigor, where it has been dormant for years. This mode of treatment has stood the test in very severe cases, and is now a pronounced success. Drugs are too much prescribed in these troubles, and, as many can bear witness to, with but little if any permanent good. There is no Nonsense about this Preparation, Practical observation enables us to positively guarantee that it will give satisfaction. — During the eight years that it has been in general use, we have thousands of testimonials as to its value, and it is now conceeded by the Medical Profession to be the most rational means yet discovered of reaching and curing this very prevalent trouble, that is well known to be the cause of untold misery to so many, and upon whom quacks prey with their useless nostrums and big fees. The Remedy is put up in a neat box, enough to last a month, and sent in a plain wrapper by mail scaled for \$3.—Two boxes, (sufficient to effect a permanent cure unless in severe cases) \$5.—Three boxes lasting three full months, will stop emissions, and restore vigor, in the worst cases, \$7.—Full DIRECTIONS for using will accompany EACH BOX.

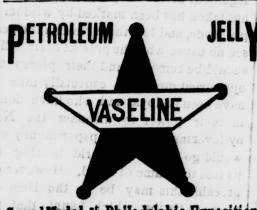

Send for a Descriptive Pamphlet giving Anatomical fluestrations, which will convince the most sceptical that they can be restored to perfect manhood, and fitted for the duties of life, same as if never affected.

A SERMON ON NOAH.

Reminiscences of Southern Pulpit BY H. H. B.

In the autumn of 1830 I attenped a Methodist camp meeting in the interior of Georgia, and heard a sermon which I have never been able to forget or describe. At the earnest solicitations of friends, I have attempt d several to write it. But it can not be put on paper. The main force of it was the snuffing and spitting and groaning and hound after a fox sort of yelp and whine, to which no pen can do justice. It must be intoned to be appreciated. I have preached it a thou-and times for the amusement of friends, and have been ratisfied with my effort. I have used it as a remedial agent exercising the demons of

hypochondria, and have never failed to send them down a steep place in the sea. or some where else, to the great relief of the sufferer. The speaker had just been licensed, and it was his first sermon. In person he was

small, bullet headed, of a fair, sandy complexion, and his countenance was indicaive of sincerity and honesty.

His remarks evinced great reverence for the works of God 29 manifested in zoology and natural history, and "was taking up the Bible in regular order for the first time in his life." He had gotten as far as the history of Noah, the ark, the flood, etc. Besides, just before his conversion he had been reading Goldsmith's 'Animated Nater,' and the two together, by the aid and resistance of the Sperit, nad led him into a powerful train of think. inges he stood at his workbench day in and day out.

But whatever his sermon may have been was his own. The text wes: "As it was in the days of Noah, so shall the coming of the son of man be." After commenting upon that portion of Genesis descriptive of the flood, he "warmed up" suddenly, and broke out in the following

"Yes, my brethern, the heavens of the windows was opened-ah, and the floods of g-r-e-a-t deep kivered the waters-ah; and there was Shem, and there Ham, and there Japeth-ah, a-l-l a-gwine into the ark-ab.

"And there was the elephantah, that g-r-e-a-t animal-ah, of which Goldsmith describes in his 'Animated Nater'-an what is as big as a house ah, and his bones as big as a tree-ab, depending somewhat on the size of the tree-ah, a-l-l a-gwine into the ark-ah. And the heavens of the windows was opened-ah, and the floods of the g-r-e-a-t deep kivered the waters-ah; and Wholesale and Retail there was Shem, and there was Ham and there was Japheth-ah, a-l l a-gwine into de ark-ah.

"And there was the hippopoptamus-ah, that g-r e-a-t animal ah, of which Gold- PARTIES Furnished REASONABLE. smith describer in his 'Animated Nater'-ah, what has a g-r-e-a-t horn-ab, a sticking right up out of his forward-ah, six feet long, more or less ab, depending somewhat on the length of it-ab, a-1-1 a-gwine into the

"And there was the giraffe-ah, my bretheren-ah, that ill contrived reptile of which Goldsmith describes in his 'Animated Na- CHIMNEYS! ter'-ah, whose forelegs is twenty-five feet long-ah, more or less-ah, depending some-what on the length of 'em-ah, and a neck so long the cold cat hay off the top of a Dealer in Fruits. Groceries, &c. barn-ah, depending somewhat on the hithe of the barn-ah, a-l-l a-gwine into the arkab. And the heavens of the windows was opened-ah, and the floods of the great deep kivered the waters-ah; and there was Ham, and there was Shem, and there was Japheth-ah, a-l-l agwine into the ark-ah.

"And there was the zebra-ah, my bretheren-ab, that b-e-a-u-t-i-f-u-l animal of which Goldsmith describes in his 'Ammated Nater'-ab, what has 300 stripes a runnin' right straight around his body- ah, more or lers-ah, depending somewhat on the number of the strik ( -ah, and nary two stripes alike-ah, a-l-l a-gwine into the

"And there was the anaconder-ah, that g-r-e-a-t sarplot of which Goldsmith describes in his 'Animated Nater'-ah, what can swallow six oxens at meal-ah provided his appetite don't call for less-ah, a-l-l a gwine into the ark ah. And the heavens of the windows was opened ah, and the floc is of the great deep kivered the waters-ah; and there was Shem, and there was Ham, and there was Japheth-ab all gwine into into the ark-ah.

"And there was a lion-ah, bretherenah, what is the king of bersts-ah, accordin' to Scripter-ah, and who, as St. Paul saysah, prowis around of a night like a roarin' devil-ah, a seekin' if he cant's catch somebody-ah, a-l-l gwine into the ark-ah. "And there wes the antelope-ab, my

bretheren-ah, that frisky little critter-ah, of which Goldsmith describes in his "Animated Nater'-ah, what can jump seventyfive foot straight up-ah, and twice that distance down-ah, provided his legs will take him that fur-ab, a-l-l : gwine into the ark-sh. And the heavens of the windows was opened-ah, and the floods of the great deep kiver 1 the waters-ah; and there was Shem, and there was Ham, and there was Japheth-ah a-1-1 a-gwine in the

Just at this point he stopped speaking a few moments, wiped his forehead, turned back his wristbands, ran his fingers through his hair, spit and rubbed his boot on it, drank a little water, commenced on a lower key, and proceeded as follows: "But time would fail me, my brethren-ah, to describe all the animals that went

into the ark-ah. Your patien e and my strength would give out before I got half through-ah. We talk, my brethren, about the faith of Abraham and the patience of Job-ah; but it strikes me they didn't go much ahead of old Noer-ah. It tuck a right smart chance o' both to gether up all nat gopher-wood and pitchand other truck or to build that craft ah. I am a sort of carpenter myself and have some idea of the job-ah. But to hammer, and saw, and maul, and split away on that one thing a nundred and twenty year-ah, an' lookin' for his pay in another world-ah—I tell ye, my brethren, if the Lord had a-sot Job at that, it's my opinion he would a tuck his wile's advice inside of fifty year-ah. Besides, no doubt, his righteous soul was vexed every day, hand runnin', with the filthy communications of the blasphemous et that was always a-loaferin terin' around ah, a-pickin' up his tools and a-misplacin' em, and a-callin' him an old fool or somethin' worse-ah; and, to clap the climax, he were preacher, and had that ungodly gineration on his hands every Sunday-ah. But the Lord stood by him and seed him through the job-ah; and when everything was ready, he didn't send Noer out to scrimmage an' cour and hunt all over the wide world for to get up the crit-

ters and varmon's that he wansed saved-ah. They all come to his hand of their own accord, and Noer only had to hed 'em in and fix 'em around in their places-ah.
Then he gathered up his own family, and the Lord shut him in, and the heavens of the windows was opened-ah. "But, my bretheren, Noer-ah had use for patience att r this-ab. Think what a

time he must a had a feedin' and a waterin and a cleanin' out after sich o crowd-ah.

Some of 'em, according to Goldsmith's 'Animated Nater-ah, we recommend to goldsmith's wanted item meat-ah; and some was way.

Wanted item meat-ah; and some was away.

STRAY—Came into the meeting in section 19, town of Harmony, one Bay Mare, with fore feet white, and star in forehead. The owner is requested to prove property, pay charges, and take the same away.

Detober 1st, 1879.

GAZETTE of 'em would roar, and howl, and bray, and squeal, and blate the whole induring of 'em would roar, and howl, and bray, night-ah, a-driven sleep from his eyes and slumber from his eyelits ah; and at the first streak 'o daylight the last hoof of 'em would set up a noise accordin' to its naterah, and the bulls of Bashan wer'n't no whar-ah. I've often wondered how the women stood it. Scripter is silent on this Eloquence-Bible History Summar- pint-ah; but I think I know of some that would a-been vapory and nervous under such circumstances-ah, and in an unguarded moment might have said somethin'

besides their prayers-ah." Here the speaker stopped again, spit, took water, etc., and hastened to a conclu-

"My bretheren," said he, "one more word for old Noer-ah, and I will draw up to a cle e-ah. After the outbeatin' time he had, first and last, for so many hundred your ah, if he did, by accident or otherwise, take a leetle too much wine on one selon-ah, I think I se ort to a-been said about it-ah. Boild a I think he was entitled to one spree-ab, as he made the wine hi selt, and accordin' to Scripter, it makes gled the hearts 'o man-ab.

"My bretheren, as it was in the days of Noer-ah, so shall the coming of the Son of Man be-ah. The world will never be drowned i agin-ah. It will be sot a fire, and burnt up, reat and branch, with a feryient hea'-sh. Oh! what will wretched; ondone sinners do on that orful day-ah? They won't feel fit for to live, nor for to di-ah. They will be put to their wit's end, and knock and straddle around in every direction-ah. For all at onct, my bretheren-ah, they will behold the heavens a-darkenin'ah, the seas a-roarin-ah, the tombs a-bustin'-ah, the mountains a-meltin'-ah; and everything I think will be in a confused and onsettled state-ah. -[Reprinted by request from the Indcpendent for June 12, 1873.

CATARRH

Chronic, and Ulcerative, Hay Fever, or Rose Catarrh, Catarrh of the Eye and Ear, and Catarrh of the Throat. SUCCESSFULLY TREATED WITH SANFORD'S RADICAL CURE.

SUCCESSFULLY TREATED WITH

SANFORD'S RADIGAL GURE.

CATARRH is a disease of the mucous membrane.

C Temperaments and constitutions vary its severity in individual cases. Catarrh may arise from a cold or a succession of colds, from sudden change of atmosphere, wearing wet clothing, or exposure to inclement weather, and becoming thoroughly chilled when the digestive organs are in a morbid or inactive condition, and the strength and vital forces exhausted. The disease may arise from a scrofulous condition of the blood, from Scarlet Fever, Measles, and Diphtheria, in which cases the eye and ear are generally involved and discharge quantities of matter. The discharges from the nese, the distinctive feature in all estarrhal cases from whatever cause they arise, may be thin and watery, and so acid as to cause redness and excontact, or thick and yellowish, emitting a foul odor, or clear and white like the white of an egg. There may be an entire lack of secretion, the surfaces being dry and feverish, the face, front and upper part of the head feeling uncomfortable, and as if it was encircled by a tight, unyielding band. This latter phase is called Dry Catarrh. The free mattery discharges cause the passages to swell and become thickened, rendering breathing through the nese difficult or impossible, and the sufferer finds it necessary to breathe through the mouth, thereby permitting cold air to pass directly to the bronchial tubes and lungs. The matter passing down the throat creates a constant desire to hawk and expectorate to throw it off; but when the membrane is dry and feverish, instead of passing freely down from the nose and throat, the mucus becomes hard lumps, which adhere so firmly to the nasal passages and throat as to require very persistent efforts to dislodge them. The eye in sympathy becomes influence and lumps, which adhere so firmly to the nasal passages and throat as to require very persistent efforts to dislodge them. The eye in sympathy becomes influence and throat as the resonant of the nervous system

last evening waiting for the train to take them northward. They were all pretty well filled with strong drink, and presented a sal spectacle. There is evidently work still to be done by the Woman's Congress. -Ex-Sheriff Colley came to the city to-

day to join in the Republican rally. He was Captain of a militia company in Bedwas one of the privates in his company. No wonder he always improves a chance to greet his old friend.

-Mr. James Lilburn, of Emeral Grove, died at his home last evening about 8 o'clock. He was a native of Scotland, and tettled in Bradford in this county in 1844 his death will prove a loss to all.

- There are a number of anxious inquirers as to what has become of "Brother" Scales, who was preaching here to the colored tolk. He ought to visit Janesville soon, and set at rest some of the ramors that are affoat here. The pastorate is now being occupied by Rev. G. C. Harrison,

-Dr. Beebe, the aurist and oculist, is to be at the Myers house in this city, Wedesday, November 5, from 12 o'clock to 5 o'clock p. m, where and when all who desire can consult with him. The Doctor has a large patronage here as well as elsewhere, and is meeting with marked suc

-Prof. Cumnock, the noted elocationist, is to give an evening's readings in this city Monday evening, November 24. Those who heard him when he was here last season were more than pleased with the entertsinment, and he will on this occasion be greeted with a much larger audience

-Mr. J. B. Anderson has placed upon our table a radish, which he pulled from Hogoboom's farm in the Red river country From its size no one would think it was a radish, but it is. It weighs 7% pounds and is of the white German kind. There' enough to it to make several free lunches for a whole neighborhood.

-Dr. Cary, who has been for a time connected with Dr. Palmer, has decided to locate at Jackson, Minnesota, where it is hoped he will meet with a goodly amount of practice. He is thoroughly educated has had considerable experience, and is withal a worthy gentleman. He merits success and will doubtless reap his share of

-Louis Smiley, a respected and well known citizen of Plymouth, met with an accident the latter part of last week which will keep him confined to the house for some time, and may permanently cripple him. He was climbing a ladder at his corn crib, when the ladder gave way, and he fell, breaking his thigh bone squarely off. He has the sympathy of many friends in his affliction.

-Last evening Mr. and Mrs. H. A. Patterson entertained a happy gathering of friends at their residence. The guests were received and cared for in a very hospitable manner, and nothing was left undone which would add in any measure to their enjoyment of the occasion. At a reasonable hour refresaments were bountifully and temptingly served, and after all had partaken, games and social chit-chat followed. Upon the walls of the parlors hung several of Miss Cook's paintings, which were greatly admired by the guests, and which called forth many well merited expressions of praise. Tais showing of art was by no means one of the least of the entertaining features of the evening.

## CONCERNING CONSISTENCY.

To the Editor. Consistency is a jewel of the first water: It the friend signing himself consistency had attended closely to what I said on Sun day evening as to what the bible said about the murderer's hell, he would have neard me quote parts of the Sth verse of the 21st chapter of Revelations. It according to his judgment the Almighty God, whom am trying to serve, is inconsistent, that is no business of mine: He must settle that with his God. As to the other question, I was not preaching on that side. I prefer God to settle that also. I will say that I have been requested to prepare a summary of the sermon for publication and it will probably be done: The Gazette gave me a very full notice for which I thank them but I hardly think that it would be fair to. General Logan and Colonel To hill to Speak at that Time.

Everybody Aroused.

In accordance with the arrangements announced in yesterday's Gazette, the Republican boom commenced last evening by the cordial reception given to General Logan, General Hurlburt, and Colonel Tuthill, who arrived on the train from Chicago shortly before 9 o'clock. As the train rolled up to the depot the Temperance Band commenced playing, and the pleasant call. He will open his dancing Reception Committee stepped forward and greeted the distinguished arrivals. Passing through the large crowd of citizens, who had gathered to welcome them, they were escorted to the carriages which stood in waiting for them, and a procession was hastily formed headed by the Band They proceeded at once to the Myers house, where an informal reception was held in -A trio of women were at the depot the parlors. Dr. Henry Palmer presided. Beside him on the platform sat General S. A Harlburt, Gen. Logan, Col. Tuthill, Congressman Williams and others. Hon Pliny Norcross introduced Gen. Hurlburt who was the first speaker. He was received with applause, and gave an hour's talk, which for sharpness, brilliancy and spice, is seldom equalied. He reviewed the records of the Republican aci Demoocratic parties, and sharply asked if there was anything in the record of the latter of which any man could feel proud.

The speaker was listened to most closely and his happy hits called fourth frequent

Congressman Williams then introduced General Logan, who was received with three cheers, and who spoke but briefly as the time was to be given to Zich Chandler, who had just arrived from Oshkosh, and who, on entering the tent, was given a round of cheers and a "tiger." ## AN OMNIBUS SOCIAL.

The omnibus social given at the pariors of the Baptist church last evening proved a success. The quartet connected with the church gave some choice music. The pastors of the several churches here gave short talks on the good things that could be said of each other's denomination. As Rev. Mr. MacLain described it, it was like call a "show"

Bountiful refreshments were served and time was given for social chatting, making the occasion a happy one.

A Rock County Murderer Attempts

to Escape from Waupun, but Fails. Those of our readers who have resided in this vicinity for ten years or so, will remember the murder of a man named Lambert, near Beloit, and the arrest and conviction of Robert M. West. While in jail here awaiting transportation to Waupun for life, West was very religiously inclined. In fact he explained the murder by saying that it was the result of a hot dispute about a difference in theological bellefs, While locked up here he was very fond of singing, and while the other prisoners would join with him in a lively chorus, he would be filing the bars, with the intention of escaping. His plan was frustrated, and he was sent up for lite. Lately he has made an attempt to escape from Waupun. The Times, of that place, gives the following account of the at-

Last Wednesday Deputy Warden White discovered a little game at the prison, which he blocked, Robert M. West, a life member, had been allowed a few tools and a little beach in his cell, because he had not telt able to engage in steady work in the shops. He had improved the opportunity by making arrangements to escape He had shaped a stick of oak so as to use it as a club, and had set a knife in one end and a chisel in the other. He had twisted the straw and hay in his bed into a rope to let himself down outside. He had sewed saws and drills into his clothing, and had cut off a couple of rivets from the lasten-ing of his cell door. He intended to cut the rest, leave his cell, saw off bars To-day the turther arrangements for the from the south window and climb the wall to liberty or recapture. If the guard interfered, as he probably would, the stick of oak was to lay him out. The plan was a desperate one, but it tailed, as most place tor escape do. West was sent from Rock Co. nine or ten years ago for killing a man setting the house on fire to burn the body, and stealing a horse from the barn, on which he tried to escape. Of late years he has been very religious, and felt so good About ten o'clock the Evansville band that he did not wish to associate with common thieves. Sunday visitors will re-

vember opens with a series of replies by Julia Ward Howe, Elizabeth Cady Stanton, Thomas Wentworth Higginson, Lucy Stone and Wendell Phillips, to Mr. Parkman's article on "The Woman Question," which appeared in the October number. They are united under the title, "The Other Side of the Woman Question," and give a very complete presentation of the arguments in favor of extending the right of suffrage to women. The second paper is an attack on Malthusianism, Darwinism, and Pessimism, by Professor Francis Bowen, of Harvard College. The writer declares that Malthusianism has no advocates, that Darwinism stands completely refuted by the facts of nature, and that in the despair of Pessimism we witness the worst consequences of the Malthusian theory. This essay will be enjoyed by those who like discussion in which no quarter is given or taken. The past few weeks have been prolific of immense percentages of profits at the New York Exchanges, by the careful use of moderate sums in well manipulated stock transactions, which returned a legitimate gain on capital invested according to correct business principles. Great activity prevails in the market. The salest and most successful method for operating in a regular way is in rinancial Union by the Protective System of dealing in stocks, which affords absolute guarantees that cannot possibly be assured otherwise. The vast aggregates on the sales of shares that have recently attained such mighty proportions, have been chiefly promoted by the infusion of this new element, which has producted results surprising to all. The conservative basis of this system is its great safety. To be sure of gaining the large profits that accrue so sure of gaining the large profits that accrue so quickly in stock movements, there must be rea-sonable protection against sweeping risks. This sonable pretection against sweeping risks. This is why the Protective System excels all. On Monday three gentlemen in New York each invested \$1,000 on Lake Shore stock by the Financial Union System, and on Thursday closed the operation with a net profit of \$5,379.27 for each investor. Thesday a bank cashier in Philatelphia put \$3,500 in Protective Options on Northwestern stock, and on Saturday closed the contract with \$12,085.73 profit. Early in the previous week two mechanics in Boston united their capital and invested \$225 on Michigan Central, and 10 days afterwards they acknowledged receipt of \$1,329.85 profits. The last week in July five farmers in Central New York invested \$500 each in Financial Unions on St. Paul stock, and the farmers in Central New York invested \$500 each in Financial Unions on St. Paul stock, and on Thursday, the 14th of August, they closed the deal and divided \$18,000 equally between them. A lady in one of the departments in washing.on used \$50 for two weeks in Protectives on Western Union and Lake Shore stocks, and made a clean profit of \$379.68. On Saturday a prominent Pennsylvanian politician invested \$1,500 in Delaware, Lackawanna and Western and Michigan Central stocks, and in five days drew out of the market with \$7,563 24 profit. A large brewer in St. Louis put \$2,500 in Protectives on St. Paul and Northwestern stocks, and fifteen days afterward closed with a gain of \$14,983.37. These are examples of what has been accomplished in Financial Union by the Protective System of operating in stocks when good advice has been followed.—With the present activity the prospects for gain in the near future are more lavorable, as the operations are equally as good for catching the prof erations are equally as good for catching the profits from fluctuations up or down as they occur. Amounts from \$45 to \$25,000 or more can be invested with proportionate success by the Financial Union System on regular sales, that leave the control of funds in the hands of investors, with definite knowledge at all times of just what stock their money is on, so that they can see at a glance what their profits are at any nour of the day by referring to market quotations. All operators are assured of straightforward treatment by the Financial Union System. Orders filled and information furnished by Messrs.
